

EXTERIOR TRIM

Entrance

EXTERIOR TRIM OPTIONS

Brickmold is a decorative piece that is attached to the exterior of your door frame to give a finished look to your entrance system where it meets the brick or siding on your home. Choose our flat Brickmold style, in the size that best suits the construction of your home.

GRILLS

Once you've chosen your transom shape, you can add a personal touch with a decorative grill. Prairie grills are often preferred because they do not obstruct the view, yet add an elegant quality to your entrance systems. Virtually any type of grill pattern is possible - from extremely simple to highly ornate.

CLEAR GLASS & INTERNAL GRILLS

Once you have chosen your door you can add a door lite with clear glass or internal grills to match your windows. Choose a pattern that best suits your needs.

RETRACTABLE MINI-BLINDS

Retractable internal Mini-Blinds can be fully opened to let in all the sunshine you desire or fully closed to provide complete privacy with convenient finger-tip controls.

With the blinds between the glass, they are fully protected. For Patio or back door applications, they are a perfect choice.
